

DIRECT MOT (INEQUALITIES)

S. Naresh Kumar

1) Statements: $A < B < C = D$, $E = B < F$, $G > F$

Conclusions:

I. $A > F$

II. $G > D$

- a) If only conclusion I is true.
- b) If only conclusion II is true.
- c) If either conclusion I or II is true.
- d) If neither conclusion I nor II is true.
- e) If both conclusions I and II are true.

2) Statements: $A \geq B < C$; $D = B$; $A < E$; $F < D < E$

Conclusions:

I. $D > C$

II. $A < C$

- a) If only conclusion I is true.
- b) If only conclusion II is true.
- c) If either conclusion I or II is true.
- d) If neither conclusion I nor II is true.
- e) If both conclusions I and II are true.

3) Statements:

$$\mathbf{A \geq B = C , C \leq D \leq E , F = G > D}$$

Conclusions:

$$\mathbf{I. F < A}$$

$$\mathbf{II. E > A}$$

- a) If only conclusion I is true.
- b) If only conclusion II is true.
- c) If either conclusion I or II is true.
- d) If neither conclusion I nor II is true.
- e) If both conclusions I and II are true.

4) Statements:

$$A \geq P = S > T, V < B = T > X$$

Conclusions:

I. $A > X$

II. $P < B$

- a) If only conclusion I is true.
- b) If only conclusion II is true.
- c) If either conclusion I or II is true.
- d) If neither conclusion I nor II is true.
- e) If both conclusions I and II are true.

5) Statements: $Z < X \leq M = G \geq H$; $J \geq G < O$; $Q \geq X$

Conclusions:

- i. $X \leq H$
- ii. $Z < J$
 - a) 1 follow
 - b) 2 follow
 - c) Either 1 or 2 follow
 - d) Both follow
 - e) Neither follow

6) Statements: $Z < X \leq M = G \geq H$; $J \geq G < O$; $Q \geq X$

Conclusions:

I. $J \geq Q$

II. $H < O$

a) 1 follow

b) 2 follow

c) Either 1 or 2 follow

d) Both follow

e) Neither follow

7) Statements: $X=Y$, $Z \leq A$, $B > Z$, $Y < A$ Conclusions:

I) $X < Z$

II) $Y < B$

- a) 1 follow
- b) 2 follow
- c) Either 1 or 2 follow
- d) both follow
- e) neither follow

8) Statement: $A > N \geq O = K \leq S < J$

Conclusion:

I. $J > O$

II. $A \geq S$

A) Only I is true

B) Only II is true

C) Either I or II is true

D) Both I and II are true

E) Neither I nor II is true

9) Statement: $S \geq R = U$, $O < N \leq U$

Conclusion:

I. $R > N$

II. $S > O$

A) Only I is true

B) Only II is true

C) Either I or II is true

D) Both I and II are true

E) Neither I nor II is true

10) Statement: $D > F < P, V > W \geq K = P$

Conclusion:

I. $W > D$

II. $V \leq P$

A) Only I is true

B) Only II is true

C) Either I or II is true

D) Both I and II are true

E) Neither I nor II is true

11)Statement: $P = M \geq Q = O < S = U$

Conclusion:

I. $P \geq O$

II. $Q < U$

A) Only I is true

B) Only II is true

C) Either I or II is true

D) Both I and II are true

E) Neither I nor II is true

12) Statements: $W > A \geq X$, $Q < N \leq E = X$, $Q < D \leq F$

Conclusions:

I) $F > N$

II) $A \geq Q$

A. only I follows

B. only II follows

C. either I or II follows

D. neither I nor II follow

E. both I and II follow

13) Statements: $S > X \geq C$, $P < L \leq B$, $P < M \leq E = C$

Conclusions:

I. $C \geq L$

II. $X \geq M$

A) only I follows

B) only II follows

C) either I or II follows

D) neither I nor II follow

E) both I and II follow

14) Statements: $P < M \leq O = S$, $P < D \leq A$, $X > V \geq S$

Conclusions:

I) $X > O$

II) $V \geq P$

A. only I follows

B. only II follows

C. either I or II follows

D. neither I nor II follow

E. both I and II follow

15) Statements: $S > K \geq X < C = N \leq Q > A$

Conclusions:

I. $X \geq Q$

II. $A > X$

A) only I follows

B) only II follows

C) either I or II follows

D) neither I nor II follow

E) both I and II follow

16) Statements: $H > E \geq V = S > L \leq A$

Conclusions:

I. $E > L$

II. $S \geq A$

A) only I follows

B) only II follows

C) either I or II follows

D) neither I nor II follow

E) both I and II follow

17) Statements: $Q \geq B > K < F$; $F < Q = S$

Conclusions:

I. $F \leq B$

II. $Q < K$

A) only I follows

B) only II follows

C) either I or II follows

D) neither I nor II follow

E) both I and II follow

18) Statements: $M < W < U \leq A = T \geq V \geq S$

Conclusions:

I. $T > W$

II. $A \geq S$

A) only I follows

B) only II follows

C) either I or II follows

D) neither I nor II follow

E) both I and II follow

19) Statements: $D < S < U \leq C = X \geq V \geq E$

Conclusions:

I. $D < X$

II. $X \geq U$

A) only I follows

B) only II follows

C) either I or II follows

D) neither I nor II follow

E) both I and II follow

20) Statements: $R > V \geq A \geq S$; $A > S$; $A \geq O \geq U$

Conclusions:

I. $V > U$

II. $S \leq O$

A) only I follows

B) only II follows

C) either I or II follows

D) neither I nor II follow

E) both I and II follow

CODED INEQUALITIES (MOT)

PROBLEM :1

1) Statement:

$$T \# R, R \% L, L * K$$

Conclusions:

I. $T \% L$

II. $K * R$

III. $T \# K$

- A. Only I is true.
- B. Only I and II are true.
- C. All are true.
- D. Only I and III are true.
- E. None of these.

‘A@B’ means ‘A is not greater than B’

‘A#B’ means ‘A is either greater than or equal to B’

‘A\$B’ means ‘A is neither greater than nor less than B’

‘A%B’ means ‘A is less than B’

‘A*B’ means ‘A is neither less than nor equal to B’

PROBLEM : 2

2) Statement:

$N \% S, S \# U, U * M$

Conclusion:

I. $M \% S$

II. $N \% U$

III. $N * M$

- A. Only I is true.
- B. Only I and II are true.
- C. All are true.
- D. Only I and III are true.
- E. None of these.

'A@B' means 'A is not greater than B'

'A#B' means 'A is either greater than or equal to B'

'A\$B' means 'A is neither greater than nor less than B'

'A%B' means 'A is less than B'

'A*B' means 'A is neither less than nor equal to B'

PROBLEM :3

Statements:

$K @ L, L \% N, E \# N$

Conclusions:

I. $K \% E$

II. $E * L$

III. $N * K$

- A. Only I and II are true.
- B. Only II and III are true.
- C. Only I and III are true.
- D. All are true
- E. None of these.

'A@B' means 'A is not greater than B'

'A#B' means 'A is either greater than or equal to B'

'A\$B' means 'A is neither greater than nor less than B'

'A%B' means 'A is less than B'

'A*B' means 'A is neither less than nor equal to B'

PROBLEM : 4

Statement:

$C \$ J, J \% V, E @ V$

Conclusion:

I. $E \% J$

II. $C * V$

III. $C * E$

$A @ B$ means 'A is not greater than B'

$A \# B$ means 'A is either greater than or equal to B'

$A \$ B$ means 'A is neither greater than nor less than B'

$A \% B$ means 'A is less than B'

$A * B$ means 'A is neither less than nor equal to B'

- A. None is true.
- B. Only II is true.
- C. Only III is true.
- D. Only II and III are true.
- E. All are true.

PROBLEM : 5

Statement:

$D \& T, T * P, M @ P$

Conclusion:

I. $D * M$

II. $M \% T$

III. $D \# P$

‘A@B’ means ‘A is not greater than B’

‘A#B’ means ‘A is either greater than or equal to B’

‘A\$B’ means ‘A is neither greater than nor less than B’

‘A%B’ means ‘A is less than B’

‘A*B’ means ‘A is neither less than nor equal to B’

- A. Only I is true.
- B. Only I and II are true.
- C. All are true.
- D. Only I and III are true.
- E. None of these.

PROBLEM : 6

Statement:

$T @ L, L \% N, D \textcircled{C} N$

Conclusion:

I $N \# T$

II. $L \% D$

'P @ Q' means 'P is not greater than Q'

'P % Q' means 'P is neither greater than nor equal to Q'

'P # Q' means 'P is neither smaller than nor equal to Q'

'P \$ Q' means 'P is neither smaller than nor greater than Q'

'P © Q' means 'P is not smaller than Q'

- A. If only conclusion I is true.
- B. If only conclusion II is true.
- C. If either conclusion I or II is true.
- D. If neither conclusion I nor II is true.
- E. If both conclusion I and II are true.

PROBLEM : 7

Statement:

$J \# R, R @ B, B \% H$

Conclusion:

I. $J @ B$

II. $J \% H$

'P @ Q' means 'P is not greater than Q'

'P % Q' means 'P is neither greater than nor equal to Q'

'P # Q' means 'P is neither smaller than nor equal to Q'

'P \$ Q' means 'P is neither smaller than nor greater than Q'

'P © Q' means 'P is not smaller than Q'

- A. If only conclusion I is true.
- B. If only conclusion II is true.
- C. If either conclusion I or II is true.
- D. If neither conclusion I nor II is true.
- E. If both conclusion I and II are true.

PROBLEM : 8

Statement:

$W @ V, V \# X, Y \odot V$

Conclusion:

- I. $X \% Y$
- II. $X \$ W$

- A. If only conclusion I is true.
- B. If only conclusion II is true.
- C. If either conclusion I or II is true.
- D. If neither conclusion I nor II is true.
- E. If both conclusion I and II are true.

'P @ Q' means 'P is not greater than Q'

'P % Q' means 'P is neither greater than nor equal to Q'

'P # Q' means 'P is neither smaller than nor equal to Q'

'P \$ Q' means 'P is neither smaller than nor greater than Q'

'P $\odot$ Q' means 'P is not smaller than Q'

PROBLEM : 9

Statement:

$M \$ K, K © F, F \% H$

Conclusion:

I. $M \# F$

II. $M \$ F$

- A. If only conclusion I is true.
- B. If only conclusion II is true.
- C. If either conclusion I or II is true.
- D. If neither conclusion I nor II is true.
- E. If both conclusion I and II are true.

'P @ Q' means 'P is not greater than Q'

'P % Q' means 'P is neither greater than nor equal to Q'

'P # Q' means 'P is neither smaller than nor equal to Q'

'P \$ Q' means 'P is neither smaller than nor greater than Q'

'P © Q' means 'P is not smaller than Q'

PROBLEM : 10

Statement:

$H \text{ © } D, D \# R, R \text{ @ } K$

Conclusion:

I. $K \text{ @ } H$

II. $H \# R$

'P @ Q' means 'P is not greater than Q'

'P % Q' means 'P is neither greater than nor equal to Q'

'P # Q' means 'P is neither smaller than nor equal to Q'

'P \$ Q' means 'P is neither smaller than nor greater than Q'

'P © Q' means 'P is not smaller than Q'

- A. If only conclusion I is true.
- B. If only conclusion II is true.
- C. If either conclusion I or II is true.
- D. If neither conclusion I nor II is true.
- E. If both conclusion I and II are true.

PROBLEM : 11

Statement:

$E \text{ © } H, K \text{ \$ } H, K \text{ @ } M$

Conclusion:

- I. $E \text{ \# } K$
- II. $E \text{ \$ } M$

'P @ Q' means 'P is not greater than Q'

'P % Q' means 'P is neither greater than nor equal to Q'

'P # Q' means 'P is neither smaller than nor equal to Q'

'P \$ Q' means 'P is neither smaller than nor greater than Q'

'P © Q' means 'P is not smaller than Q'

- A. If only conclusion I is true.
- B. If only conclusion II is true.
- C. If either conclusion I or II is true.
- D. If neither conclusion I nor II is true.
- E. If both conclusion I and II are true.

EITHER OR MOT

1) $D < R$, $R \leq F$, $F > E$

I. $E > D$

II. $E \leq D$

- A. Only I is true
- B. Only II is true
- C. If either I or II follow
- D. If neither I or II follow
- E. If both I and II follow

2) $A \geq H < B = C$, $E \leq B$, $J > G = E$

I. $C \geq J$

II. $C < J$

Only I is true

Only II is true

Either I or II true

Neither I nor II is true

Both I and II are true

3) $X > W = V < U, Y > Z \geq X$

I. $Y \geq V$

II. $V > Y$

- A. Only I is true
- B. Only II is true
- C. Either I or II true
- D. Neither I nor II is true
- E. Both I and II are true

4) $J > K \geq L, M \geq K < N$

I) $J > N$

II) $J \leq N$

- A. Only I is true
- B. Only II is true
- C. Either I or II true
- D. Neither I nor II is true
- E. Both I and II are true

5) $M = N \leq O \leq R;$ $P < O \leq S < T$

I. $N = S$

II. $N < S$

- A. Only I is true
- B. Only II is true
- C. Either I or II true
- D. Neither I nor II is true
- E. e.Both I and II are true

6) $N \geq M = O, Q > W \leq P \leq O$

I. $N > P$

II. $N = P$

- A. Only I is true
- B. Only II is true
- C. Either I or II true
- D. Neither I nor II is true
- E. Both I and II are true

7) $A < B \geq C = D < E, F \geq A$

I. $F > D$

II. $D = F$

- A. Only I is true
- B. Only II is true
- C. Either I or II true
- D. Neither I nor II is true
- E. Both I and II are true

8) $P \geq U > T \leq O < Q$, $R = P$

I. $R > U$

II. $R = U$

- A. Only I is true
- B. Only II is true
- C. Either I or II true
- D. Neither I nor II is true
- E. Both I and II are true

9) $A < B \geq C = D < E, F \geq A$

I. $A \geq D$

II. $A < C$

- A. Only I is true
- B. Only II is true
- C. Either I or II true
- D. Neither I nor II is true
- E. Both I and II are true

10) 'A @ B' means 'A Is not smaller than B'

'A # B' means 'A is neither smaller than nor equal to B'

'A % B' means 'A is neither smaller than nor greater than B'

'A \$ B' means 'A is not greater than B'

'A * B' means 'A is neither greater than nor equal to B'

Statements: C % D, E * F, A # B, D @ E, B # C

Conclusion :

(i) A @ F

(ii) A * F

a. Only I is true

b. Only II is true

c. Either I or II true

d. Neither I nor II is true

e. Both I and II are true

11) 'A @ B' means 'A Is not smaller than B'

'A # B' means 'A is neither smaller than nor equal to B'

'A % B' means 'A is neither smaller than nor greater than B'

'A \$ B' means 'A is not greater than B'

'A * B' means 'A is neither greater than nor equal to B'

Statements: C % D, E * F, A # B, D @ E, B # C

Conclusion :

(i) C # E

(ii) C % E

A. Only I is true

B. Only II is true

C. Either I or II true

D. Neither I nor II is true

E. Both I and II are true

THANK YOU
